

Steel Fabrication

Keeping the art of distribution simple

Steel Fabrication

Our bespoke fabrication service at our specialist facility in Manchester provides you with pre fabricated steel solutions for buildings and industry. We have experience in handling all steel sizes. This allows for fast delivery, produced on-time to the exact specification and dimensional tolerance. Shawston fabrication eradicates lengthy lead times to keep projects running on time and on budget.

Our skilled team of engineers, welders and fabricators share in excess of 200 years experience and are highly trained to ensure they meet industry standards. They are fully versed in working with all sizes and grades of mild steel and are a team you can trust. We employ structural engineers and we can underwrite design.

Each project is carefully managed to ensure it meets the brief and is delivered in full and on time. We hold a vast stock of structural steel, tube and commodity brackets/fittings to feed our production line. The combination of our skilled labour, experience, well equipped workshop and vast stock give you peace of mind that your project is in safe hands whilst allowing you to benefit from rapid turn-around.

Typical example of Fabricated products we can manufacture
